Manager Sarah
Millington on
01773 857514 or
sarah.millington@bandk.co.uk.

Welcome to the first newsletter from Bowmer + Kirkland, the contractor responsible for the new Bosvena School in Bodmin.

Project Information

The completed project will provide a 65-pupil two-storey school for children aged 4-16.

The school will also include a multi-use games area, sports facilities, hard and soft landscaping, a new entrance on Turfdown Road and associated car parking.

Our initial site set-up starts from May 7, with the forming of the site entrance, installation of tree protection fencing, temporary drainage and site strip.

We thank you in advance for your patience during the construction period and will keep you updated on forthcoming works with regular newsletters.

Social Value at B+K

At Bowmer +Kirkland creating social value means making a positive impact on people's lives and local communities. As a family business, we have purpose beyond profit so it's important to us to demonstrate how our projects impact the environment and local community, and deliver social value.

Committed to developing and upskilling the next generation, we often work with local schools to offer work experience and apprenticeship opportunities, site visits and career engagement opportunities so that all students gain a better understanding of the built environment and construction.

We also spend local where we can, including with SMEs and social enterprises and employing a local and diverse workforce, supporting NEETs, ex-offenders and the homeless.

We have delivered more than £550m worth of social value in the last five years * and aim to add much more to this on future projects.

* calculated using the TOMs methodology

If you have any questions or comments please contact the Project Manager below. Alternatively, send us a comment about this site, scan the QR code (right) and send us a message or text (including the site ID number 97644) to 07400 334 880 (please note this does not accept calls).

Considerate Constructors Scheme Code of Practice

**CONTRACTOR
AND SUPPLIER
PARTNER**

**CONSIDERATE
CONSTRUCTORS
SCHEME**

Organisations registered with the Considerate Constructors Scheme make a commitment to conform to the Code of Considerate Practice.

Through consideration to community engagement, the environment and workforce wellbeing they strive to improve the impact of the construction industry and leave a positive legacy through the implementation of best practice.

The Code of Considerate Practice defines the fundamental expectations for registration with the Scheme. The Code applies equally to all organisations registered with the Scheme, regardless of size, type or location.

Respecting the Community

Constructors must manage their impact on their neighbours and the public to support a positive experience, by:

- Ensuring courteous and respectful language and appropriate behaviour in and around the construction activity.
- Providing a safer environment, preventing unnecessary disturbance, and reducing nuisance for the community from their activities.
- Proactively maintaining effective engagement with the community to deliver meaningful positive impacts.

Care for the Environment

Constructors must minimise their impact and enhance the natural environment, by:

- Prioritising environmental issues to protect the natural environment and minimising negative impacts.
- Optimising the use of resources, including minimising carbon throughout the value chain.
- Engaging with the community to improve the local environment in a meaningful way.

Value their Workforce

Constructors must create a supportive, inclusive, and healthy workplace, by:

- Actively encouraging and supporting an inclusive and diverse workplace.
- Proactively supporting safe working, mental and physical wellbeing at work.
- Providing workplaces that are, well maintained, clean and secure from physical and biological hazards.
